

340B PROGRAM

INTRODUCTION

ScriptSourcing's 340B program simplifies the complex 340B landscape, and maximizes Rx savings opportunities.

HOW THE PROGRAM WORKS:

1 ELIGIBILITY AND ENROLLMENT

\$0 Copays

There are no copays or fees for members to join the program.

Simple Enrollment

To enroll, members complete a brief health screening questionnaire and participate in a quick 5-minute physician consultation to verify prescription eligibility.

Annual Renewal

To maintain enrollment, members will have an annual consultation (video call or phone call).

2 PRESCRIPTION PROCESS

Health Screening Questionnaire

Members receive a secure health screening questionnaire

Telehealth Physician Consultation

5-minute telehealth physician consultation

Prescription

A copy of the member's original prescription is sent to the pharmacy for fulfillment and shipping

Follow-Up Call

A follow up call is scheduled within 30 days

DISCLAIMER:

340B medical providers do NOT replace the member's existing doctor but will clone the original physician's prescription (e.g. drug, strength, instructions, quantity including refills) to ensure continuity of care.

3 COVERED ENTITY RELATIONSHIP

To get medications through the 340B program, patients must be treated by a healthcare provider or facility that's part of the program. This program is overseen by a government agency called HRSA.

4 MEDICATION AVAILABILITY

The program offers a wide range of medications, including brand-name and specialty drugs, available through a centralized platform at discounted rates.

5 BENEFITS OF THE 340B PROGRAM

- **\$0 copays:** Zero out-of-pocket costs for members.
- **Employer savings:** Save up to 50% on Rx costs.
- **No Impact on Primary Care Providers:** The program does not replace existing relationships with primary care doctors or specialists, ensuring continuity of care.
- **Improved Medication Adherence:** By lowering medication costs, members are more likely to follow their prescribed treatment regimens, improving health outcomes.

IMPLEMENTATION

IDENTIFY SAVINGS OPPORTUNITIES

ScriptSourcing identifies which 340B eligible drugs provide overall net savings for your plan.

MEMBER OUTREACH

ScriptSourcing member advocates actively outreach to members eligible for 340B.

PLACE AN ORDER

Once the member has completed enrollment, ScriptSourcing places the order for the eligible medication through the program

OPTIMIZE YOUR RESULTS

HR OUTREACH SUPPORT

Email Notification: Announce the 340B program to members.

Phone Follow-Up: Address member questions, reinforce program details, and highlight potential savings.

INCENTIVIZE MEMBER PARTICIPATION

Consider offering incentives or gift cards to encourage member participation.
